

## Covid-19 Screening Tool

The Covid-19 Screening module in PROMIS 4 lets you record any Influenza-like illness/COVID-19 symptoms a patient may be experiencing at the time of their visit.

The Covid-19 Screening Summary page lists any previous assessments.

### *Viewing and Adding a Covid-19 Assessment*

**Navigation:** PROMIS 4 Patient Chart > Assessment menu > Covid-19 Screening

This section describes how to view and add new Covid-19 assessments.

#### **To view existing Covid-19 Assessments:**

1. In **PROMIS 4**, open the patient's chart.
2. On patient chart menu bar, open the **Assessment** menu and select **Covid-19 Screening**. The Covid-19 Screening Summary page opens.
3. Here you can see the date of the assessment and the completed questionnaire.

#### **To add a new questionnaire:**

1. On Patient Chart menu bar, open the **Assessment** menu and select **Covid-19 Screening**. The Covid-19 Screening Summary page opens.
2. Click the **Add** button. The **New Screening Questionnaire** dialog box opens.
3. Enter the assessment date and any other information you have.
4. Click **Save**.

**Note:** Please contact PROMIS Support at 604-806-8868, 1-855-806-8868 or email [support@bcpra.ubc.ca](mailto:support@bcpra.ubc.ca) for any assistance.
