PROMIS 4 Getting Started

 eLearning Course  12 minutes  Computer Application Training

Getting Started provides all the information you need to access and navigate your way through PROMIS 4. This 2 video course includes: an introduction to the PROMIS Portal, accessing PROMIS 4 and other PROMIS views, recovering lost credentials, navigating the home page and patient chart, and searching for patients.

This course is recommended for all PROMIS users.

 Course Length	12 minutes
 Course Code	17847

PROMIS 4 Modality Selection

 eLearning Course  5 minutes  Computer Application Training

The Modality Selection module in PROMIS 4 is designed to follow the patient journey through the modality selection process. After a patient is identified for modality selection you can document outcomes (treatment options, education, patient decision and treatment started).

 Course Length	5 minutes
 Course Code	17845

PROMIS 4 Patient Worklists

 eLearning Course  12 minutes  General

PROMIS lets you create lists of patients, called patient worklists. Then, when working with patient records in PROMIS 4 or Classic, you can quickly select patients from the worklist.

 Target Audience	All PROMIS users
 Course Length	12 minutes
 Course Code	22248

PROMIS 4 Physical Examination

 eLearning Course  < 5 minutes  General

PROMIS 4 lets you view, add, edit, and delete a patient's physical examination records.

 Target Audience	All PROMIS users that need to enter physical examination assessments.
 Course Code	22247

PROMIS 4 Diagnostic Results

 eLearning Course  3 minutes  General

Diagnostic Results is a patient chart module used to enter and view key diagnostic values. It is used to enter values related to ECHO, ECG, Pulmonary Function, Bone Mineral Density and Chest X-ray results.

After this session, the learner will be able to:

- Login and access PROMIS
- View a summary of existing diagnostic results
- Add/Edit/Delete Diagnostics Results

 Target Audience	All PROMIS and PCR Users
 Course Length	3 minutes
 Course Code	24726

PROMIS 4 Lab Results

 eLearning Course  < 5 minutes  Computer Application Training

Nurses and doctors need their patients' lab test results to be up-to-date and available in PROMIS.

The Lab Results module in PROMIS 4 lets you view and enter a patient's lab test results.

 Target Audience	All PROMIS users that need to view a patient's lab results.
 Course Code	20561

To register for PROMIS training please visit LearningHub <https://learninghub.phsa.ca/>

PROMIS 4 Microbiology

 eLearning Course  < 5 minutes  General

The Microbiology/Fluids is similar to the Lab Results; this is the repository for all microbiology information. This information can only be auto-populated and not manually entered.

 Target Audience	All PROMIS users that need to view a patient's microbiology results.
 Course Code	22341

PROMIS 4 Vascular Training

 eLearning Course  10 minutes  General

The Dialysis Access Module will display a list of all HD and PD access records.

The videos in this course will demonstrate how to create a blood culture and transonic assessment in PROMIS 4.

 Target Audience	HD staff who enter blood cultures and transonics only.
 Course Length	10 minutes
 Course Code	26620

PROMIS 4 Complications

 eLearning Course  < 5 minutes  General

The Complications module in PROMIS 4 lets you record notes about patient complications. You can add follow-up notes to a complication note. The Complications module is often used for recording post-transplant complications while the patient is admitted in the hospital.

 Target Audience	All PROMIS users that need to enter a patient's complication records.
 Course Code	22246

To register for PROMIS training please visit LearningHub <https://learninghub.phsa.ca/>

PROMIS 4 PD Assist

 eLearning Course  < 5 minutes  General

This is the PD Assist module in PROMIS 4 which supports the BCPRA PD Assist program. The module lets you view, add, update, and remove PD assist records.

 Target Audience	PD Nurses and PD Clerks (Data Entry), Viewing only Social Worker, Physicians
 Course Code	18548

PROMIS 4 Emergency Planning

 eLearning Course  15 minutes  Clinical

The EM Planning module provides the following features:

- An explanation of how BC Renal managers activate the BC Renal EM plan
- A map that shows the location and occupancy level of dialysis facilities
- A dialysis facility report that:
 - * shows the staffing, resources, and dialysis schedule for each dialysis facility
 - * helps you plan how many evacuated patients you can add to a facility's schedule
 - * lets you indicate that a facility has been evacuated
- A tool for listing and tracking renal patients affected by the evacuation of a dialysis facility
- A tool for viewing and controlling who can use the EM Planning module

 Target Audience	All PROMIS Users
 Course Length	15 minutes
 Course Code	20532

PROMIS 4 ACP (Advance Care Planning)

 eLearning Course  5 minutes  Computer Application Training

The Advance Care Planning (ACP) module in PROMIS 4 provides clinical staff with high-level information about patients who need or receive ACP care. The information is also used to improve ACP in renal programs.

After viewing the 2 videos in this course, the learner will be able to:

- Record and edit ACP discussions
- Upload ACP documents from PROMIS 4
- Generate a custom report: ACP List of Patients report

 Course Length	5 minutes
 Course Code	17667

PROMIS 4 ESAS (Edmonton Symptom Assessment System)

 eLearning Course  4 minutes  Computer Application Training

The Edmonton Symptom Assessment System (ESAS) provides a clinical profile of symptom severity over time and provides context for understanding a patient's symptoms. Patients score the severity of 12 symptoms. They can score each symptom from none 0 to worst possible 10. A score of 7 or more is considered severe.

After viewing the 2 videos in this course, the learner will be able to:

- Record new ESAS assessments using the Worklist
- Edit an existing ESAS
- View graph details of recorded symptoms

 Course Length	4 minutes
 Course Code	17846

PROMIS 4 Biopsy

 eLearning Course  5 minutes  General

The Biopsy module provides information to clinical staffs and researches for the following purposes:

- Diagnose an organ problem that can't otherwise be identified
- Help develop treatment plans based on the organ's condition
- Determine how quickly the disease is progressing
- Determine the extent of damage from a disease
- Evaluate how well treatment for an organ disease is working
- Monitor the health of a transplanted organ or find out why a transplanted organ isn't working properly

 Target Audience	All Transplant and Renal users.
 Course Length	5 minutes
 Course Code	23903

PROMIS 4 Photo Upload

 eLearning Course  < 5 minutes  General

The Patient Photo form is used to upload patient photos in the the database. Photos must be a JPG or PNG file and no larger than 5MB in size.

 Target Audience	All PROMIS Users
 Course Code	24476

PROMIS 4 Lab List Builder

 eLearning Course  < 5 minutes  Computer Application Training

The Lab List Builder in PROMIS 4 lets you create lab lists and subscribe to public lab lists. You can use those lab lists and provincial lab lists to filter a patient's lab test results on the Lab Results page and in lab result reports.

 Target Audience	All PROMIS users.
 Course Code	20562

PROMIS 4 eGFR Priority Report

 eLearning Course  5 minutes  General

The eGFR Priority Report is a Centre Report that is mainly used by KCC's to track modality/transplant education and the status of access plans for CKD and post-transplant patients.

PROMIS 4 lets you create a list of patients that match your eGFR or serum creatinine criteria.

 Target Audience	All PROMIS Users.
 Course Length	5 minutes
 Course Code	23383

PROMIS 4 Patient Monthly Results

 eLearning Course  4 minutes  General

The Patient Monthly Results report displays the latest lab results by month. Reports, such as the Group Monthly Lab Review and Patient Monthly Results reports were designed to enable you to specify exactly which labs you would like to view results for.

 Target Audience	All Clinicians in PROMIS.
 Course Length	4 minutes
 Course Code	23902

PROMIS 4 Navigating Reports (Asynchronous Reports)

 eLearning Course  7 minutes  General

Asynchronous Reporting is the new reporting system in PROMIS. It allows users to submit report requests and navigate to other areas of the application while waiting for the query to be executed.

 Target Audience	All PROMIS Users.
 Course Length	7 minutes
 Course Code	23380

PROMIS 4 Pt Infectious Status / Immunization Hx

 eLearning Course  19 minutes  General

The Pt Infectious Status/Immunization Hx Summary page will display a list of all serology and immunization records entered.

PROMIS 4 lets you view, add, edit and delete a patient's serology and immunization information record. Provincial Immunization Registry (PIR)/BCCDC data including COVID-19 Vaccine Status is auto-loaded in PROMIS.

 Target Audience	All Clinicians who needs to see all the lab tests and immunizations for a patient.
 Course Length	19 minutes
 Course Code	23379

PROMIS 4 GN Immunosuppression Drug Application & Status

 eLearning Course  8 minutes  Clinical

GN Clinics uses the Glomerulonephritis Oral Immunosuppressant Application Form in PROMIS 4 to electronically apply for the coverage of oral immunosuppression drugs.

PROMIS 4 lets you record details and Oral medication for coverage reasons for the application.

The GN Immunosuppression Drug Application Status report to check the status of all submitted applications.

 Target Audience	All PROMIS Users
 Course Length	8 minutes
 Course Code	22926

PROMIS 4 User Access Review

 eLearning Course  < 5 minutes  General

The user access review of user access is conducted in compliance with the BC Freedom of Information and Protection of Privacy Act (FIPPA). The PROMIS authorized approvers are required to go through the list of users who can access patient information through PROMIS and mark any changes. The User Access Review screen in PROMIS 4 provides that list of users by management centre and programs.

 Target Audience	PROMIS authorized approvers.
 Course Code	23620

PROMIS Clerk Basics - HD

 Classroom Course  2 hrs 30 mins  Computer Application Training

 Target Audience	HD Unit Clerks or any staff member needing to know data entry basics in an HD unit.
 Course Length	2 hrs 30 mins
 Course Code	13489

PROMIS Clerk Basics - CKD

 Classroom Course  3 hours  Computer Application Training

 Course Length	3 hours
 Course Code	13488

PROMIS Nurse Basics - CKD

 Classroom Course  2 hrs 30 mins  Computer Application Training

 Course Length	2 hrs 30 mins
 Course Code	13490

PROMIS Nurse Basics - HD

 Classroom Course  2 hrs 30 mins  Computer Application Training

 Course Length	2 hrs 30 mins
 Course Code	13491

PROMIS Nurse Basics - PD

 Classroom Course  3 hours  Computer Application Training

This training session supports the orientation to PROMIS for PD Nurses.

After this session, the learner will be able to:

- Login and access PROMIS
- Access Patient Demographics
- Access Medications and Labs
- Access Dialysis Access Form
- Enter/Review information in the PD Module
 - PD Prescriptions
 - Catheter (create new, remove)
 - Flush/Transfer Set
 - Assessment/Events
 - Infection, Test Orders and Antibiotics
- Run Reports

Training is offered in person at the PROMIS Training center (315-1200 Burrard St. Vancouver) or by webinar.

On site training can be arranged by request.

** Please note: You must register for this course a minimum of one full business day in advance. If you wish to register for the course any time after that please contact the course manager.**

 Target Audience	PD Nurses
 Course Length	3 hours
 Course Code	13066

PROMIS

Patient Records and Outcome
Management Information System

PROMIS 4 Post COVID-19 Questionnaire

 eLearning Course

 27 minutes

 Clinical

The Post COVID-19 Questionnaire assesses the health status for patients affected by COVID-19. A Baseline Questionnaire record collects information from a patient generally 3 months post-infection and subsequent Follow-up Questionnaire records follow at the program's predetermined intervals.

 Target Audience	PCR Users only
 Course Length	27 minutes
 Course Code	24925

PROMIS 4 Covid-19 Screening Tool

 eLearning Course

 < 5 minutes

 Clinical

The Covid-19 Screening module in PROMIS 4 lets you record any Influenza-like illness/COVID-19 symptoms a patient may be experiencing at the time of their visit.

 Target Audience	All PROMIS Users
 Course Code	23128
