

## Member, BC Renal Home Hemodialysis Committee

### Role description

The BC Renal Home Hemodialysis (HHD) Committee guides the development of the provincial independent hemodialysis program, ensuring high quality, safe, and fair patient care.

Committee membership includes patient partners, clinical, and administrative leaders from regional health authorities and BC Renal. Members work together by sharing their perspectives to support excellence in the delivery of independent hemodialysis care in BC. Patient partners are integral committee members by working together with kidney health professionals to ensure quality care for patients receiving independent dialysis treatment.

### Level of engagement

**Collaborate:** BC Renal will work together with all members in decision making and developing solutions, and will include your recommendations into each decision as much as possible.

### Requirements

- Person (patients or family caregivers) who previously received or are currently receiving independent (home or facility-based) hemodialysis treatment in BC
- Experience working and sharing perspectives with diverse groups of people
- A strong interest in partnering and working together with health professionals to improve the quality of life of people living with chronic kidney disease

We are hoping to recruit diverse voices and welcome patient partners of various ages, genders, kidney disease experiences, and cultural backgrounds from across the province.

### Number of positions available
