

## Member, Glomerulonephritis Materials for Patients & Clinicians Working Group

### Role description

BC Renal Glomerulonephritis (GN) Committee is looking for patients and family members who are living with GN to participate in a working group. This working group will develop GN education materials for staff providing kidney care and patients receiving care at Kidney Care Clinics in BC. People with the lived experience will work together with health professionals in this group to create these education materials, ensuring that all of them are helpful to those living with GN in BC and the patient resources are easy to understand.

### Level of engagement

**Collaborate:** BC Renal will work together with all members in decision making, developing alternatives and solutions, and include your recommendations in each decision as much as possible.

### Requirements

- Patients or family members with lived experience of Glomerulonephritis (GN) (e.g. IgA nephropathy, FSGS, ANCA vasculitis, membranous nephropathy, lupus nephritis) and not on dialysis.
- Experience of care at a multi-disciplinary non-dialysis care at a Kidney Care Clinic is an asset.
- Comfortable in working and sharing perspectives with a diverse group of people.

We are hoping to recruit diverse voices and welcome patients and family members of various ages, genders, cultural backgrounds, geographical regions and lived experience of GN from across the province.

### Number of positions available

3

### Commitment

- 1-hour meeting every one or two months via web-conference during typical workday hours (9 a.m. to 5 p.m.).
- Up to 2 hours per month in reviewing related materials between meetings.
- Term membership will be for one year.

### RSVP questions

Please respond to the following questions by email ([patientengagement@bcrenal.ca](mailto:patientengagement@bcrenal.ca)) or phone (604-875-7340) by **Friday, June 7, 2024**:

1. Briefly describe your experience with Glomerulonephritis (GN).
2. Which renal program are/ were you or your family member in (i.e., Fraser Health, Interior Health, Island Health, Northern Health, Providence Health Care, or Vancouver Coastal Health)?
3. How did you hear about this working group?
4. Why are you interested in being a part of this working group?
