

Provincial Renal Emergency Management Plan

Questions & Answers – Staff and Physicians

1. Is there a provincial renal emergency management plan?

Yes. The BC Provincial Renal Agency has a Provincial Emergency Management and Business Continuity Plan. This provincial plan will be initiated when one or more regional Renal Programs become overwhelmed by a disaster or emergency event.

2. Do you know where the BC Provincial Renal Agency has a Provincial Emergency Management and Business Continuity Plan is kept?

The BC Provincial Emergency Management and Business Continuity Plan is available via the [BCPRA website](#)

3. How is it initiated?

The Provincial Emergency Management and Business Continuity Plan is formally initiated through the PHSA Emergency Manager on-call. The plan contains a fan out list that the PHSA Emergency Manager on-call can use.

During an event there will be on-going communication between the BC Provincial Renal Agency and the impacted Renal Programs. If there is a need to initiate the provincial plan the BCPRA will be ready.

4. Do you know how the provincial renal disaster plan links to other levels of disaster response?
